📄 McGraw Hill Connect

## McGraw Hill Connect

Connect by McGraw Hill is a web-based assignment and assessment platform where some of course activities will be found, along with readings and other essential course information. Upon clicking the link below, you will be directly connected. Do not access this program externally; it cannot be used as part of the coursework.

[Click here to access your Connect Course](#)

Work completed within McGraw Hill Connect will be graded, and grades will be transferred to the Grades tool in MyClassroom, so make sure you are checking for any deliverables due in McGraw Hill Connect each week.

Extra Credit Opportunity: Under the name of Resources, there are two subsections. The Final materials include four sections to review excel math skills: organizing data, basic math, functions, and advanced functions and operations. The Connect Orientation Videos include tutorials on the activities are highly encouraged to be completed. If you choose to complete these activities, you can earn extra credit in the gradebook.

For FINC600, this includes the following:

### Week 1:

- Assignment: Week 1 Problems
- **Test: Week 1 Quiz**

### Week 2:

- Assignment: Week 2 Problems
- **Test: Week 2 Quiz**
